

INTERNATIONAL JOURNAL OF TRANSPORT PHENOMENA

Published in association with the Pacific Center of Thermal-Fluids Engineering

<http://www.oldcitypublishing.com/IJTP/IJTP.htm>

EDITOR IN CHIEF

Van P. Carey
Dept. of Mechanical Engineering
University of California
Berkeley, CA 94720, USA

e mail: vpcarey@berkeley.edu

FOUNDING EDITOR

Paul J. Marto
Department of Mechanical Engineering
Naval Post Graduate School
700 Dyer Road
Monterey, CA 93943, USA
e-mail: PJMarto@aol.com

REGIONAL EDITORS

ASIA: **Shou-Shing Hsieh**, National Sun Yat-Sen University, Taiwan; **Seung Jong Lee**, Seoul National University, Korea; **Joon Sik Lee**, Seoul National University, Korea; **Xiao-Feng Peng**, Tsinghua University, China, **Shuichi Torii**, Kumamoto University, Japan

EUROPE: **Galip Akay**, University of Newcastle, UK; **Alberto Cavallini**, University of Padova, Italy; **Erich Hahne**, Universität Stuttgart, Germany; **Dimos Poulikakos**, ETH-Zentrum, Switzerland

NORTH AMERICA: **Van P. Carey**, University of California, Berkeley, USA; **Sadik Dost**, University of Victoria, British Columbia, Canada, **Thomas Hwang**, GE Power Systems, USA; **Masahiro Kawaji**, University of Toronto, Canada, **Mark A. Kedzierski**, National Institute of Standards and Technology, USA; **Aaron Wemhoff** Villanova University

ASSOCIATE EDITORS

André Bontemps, LEGI/GRETh, CEA Grenoble, France, **Murat Dogru**, University of Newcastle, UK; **Wolfgang Heidemann**, University of Stuttgart, Germany; **Tien-Chien Jen**, University of Wisconsin, USA; **Min Chan Kim**, Cheju National University, Korea; **Sung Jin Kim**, Korea Advanced Institute of Science and Technology, Korea; **Akira Murata**, Tokyo University of Agriculture and Technology, Japan; **David Naylor**, Ryerson University, Ontario, Canada, **Hideo Yoshida**, Kyoto University, Japan, **Yinping Zhang**, Tsinghua University, China

EDITORIAL BOARD

Adrian Bejan, Duke University, USA; **John C. Chen**, Lehigh University, USA; **Kenneth R. Diller**, The University of Texas at Austin, USA; **Masaru Ishizuka**, Toyama Prefectural University, Japan; **Sung Tack Ro**, Seoul National University, Korea; **John W. Rose**, Queen Mary & Westfield College, University of London, UK; **Karl Stephan**, Institut für Technische Thermodynamik und Thermische Verfahrenstechnik, Germany; **Chih-Ping Tso**, Nanyang Technological University, Republic of Singapore

CALL FOR PAPERS

The editors of *Transport Phenomena* invite your contributions. Detailed notes for contributors can be found on the reverse side of this flier.

The *International Journal of Transport Phenomena* provides a high-quality forum for a wide range of papers dealing with original research results pertaining to the transfer processes of mass, momentum and energy, particularly when two or all three processes are occurring simultaneously. The journal will also provide well-prepared archival review articles.

Approximately one half of the papers for this journal will come from Pacific Center of Thermal-Fluids Engineering sponsored International Symposia on Transport Phenomena. The best papers from these Symposia, those having lasting impact, will be selected for consideration in this journal. In these cases, the author must disclose such previous history and obtain copyright clearance, when necessary. The rest of the papers will be selected from unsolicited submissions from around the world.

The journal encourages manuscripts from a broad spectrum of scientists and engineers working in academia, industry and government. It appeals to an interdisciplinary audience in the fields of mechanical, chemical, nuclear, process, petroleum, aerospace, environmental and bio-engineering.

Papers submitted for publication must be in English and must follow a prescribed format. All papers will be subjected to a critical peer-review prior to publication.

SUBSCRIPTIONS

The *International Journal of Transport Phenomena* publishes four issue per volume. Subscriptions are renewed on an annual basis.

Institutional: US\$896 • EURO €698 • ¥91,122 **Individual:** US\$184 • EURO €156 • ¥20,366

ISSN 1028-6578 (print) • 1540-0069 (on-line)

For more information, a sample copy, to subscribe or order back issues, contact:

Old City Publishing, 628 North 2nd Street, Philadelphia, PA 19123, USA • tel: +1 215 925 4390 • fax: +1 215 925 4371

Enquiries can also be sent by e-mail via a link on the publishers website:

Notes for Contributors

International Journal of Transport Phenomena

In order to ensure timely handling of manuscripts, contributors are encouraged to read these instructions carefully before preparing a manuscript for submission, and to check the manuscript for compliance with these notes before submitting it for publication.

Submission of Manuscripts Please submit a pdf of your manuscript to the Editor in Chief: **Dr. Van P. Carey**, Dept. of Mechanical Engineering, University of California, Berkeley, California 94720, USA; E-mail: **vpcarey@berkeley.edu**

Please include *complete* postal addresses, e-mail addresses, and telephone and fax numbers for all authors of an article.

Manuscripts, where appropriate, should contain these sections in this order: Title, Author By-Line, Abstract, Key Words, Introduction, Main Text, Conclusions, Acknowledgments, Nomenclature, and References. In addition, the Main Text should be broken into several appropriate sections such as Experimental Apparatus, Results, Discussion, etc.

The manuscript should consist of type and equations only, with all tables, line drawings, and photographs grouped together as artwork at the end of the text.

Submission of a paper to the *International Journal of Transport Phenomena* implies that it has not been published or submitted elsewhere. Selected papers from conference proceedings will be accepted for publication by prior arrangement with conference organizers. Upon acceptance, the publisher acquires the copyright for unlimited world-wide distribution including an electronic format.

Guidelines for the Submission of Text

All submissions should be made as Microsoft Word documents accompanied by a pdf file with the fonts embedded. The manuscript and references should be double-spaced, presented in an easily readable, standard font and size (such as 10 or 12 pt. Times New Roman or Arial). All pages should be numbered. All manuscripts must be submitted in English; American or British spelling may be used.

Length: The *International Journal of Transport Phenomena* will consider papers of any length. Generally, the text of the manuscript should run 15 to 40 double-spaced pages, plus artwork grouped at the end. Four pages of double-spaced manuscript converts to one 8.5" X 11" double-column journal page.

Title: The title of the paper should clearly indicate the scope and findings of the paper and should provide an accurate indication of the contents when searched by computerized methods. An abbreviated title of a maximum of 35 characters should be provided as well.

Authors: The names of authors should be given in full (first name, initial(s), last name) followed by his or her department, institution and address including postal code and country. The author to whom correspondence should be directed should be indicated in the cover letter. For the corresponding author, telephone and fax numbers and e-mail address should be provided as well.

Abstract: Manuscripts should include an abstract of 100-150 words summarizing the significant findings.

Keywords: Six to twelve keywords or phrases should be supplied to aid in indexing the article.

Text headings: Headings should be set flush left and the text should begin on the next line. For example:

first-level **HEADING** (bold, all caps.)

second-level **Heading** (bold, upper case and lower case characters)

third level Heading: (underscore:, upper case and lower case characters)

Nomenclature: A nomenclature section defining all symbols used should be included at the end of the paper. Please indicate S.I. units.

Tables: Tables should be numbered consecutively and include a clear descriptive caption at the top. Avoid the use of structural formulas in the body of tables. Table footnotes should be given a footnote symbol as explained in the Footnotes section, proceeding by row rather than by column order.

References: References should conform to the specifications set forth in the *Publication Manual of the American Psychological Association*. References should be cited in the text by author's last name and publication year. The full list of references should be collected and typed at the end of the paper in alphabetical order. Cite all authors on each paper; "et al." is not sufficient.

Examples:

JOURNAL ARTICLE: Last name one, first initial., Last name two, first initial. (year). Title of article. *Journal Title*, volume, pages.

BOOK: Last name, first initial. (year). *Book Title* (edition). City: Publisher.

STAND-ALONE WEB DOCUMENT: Last name, first initial. (year). *List of authoring systems*. Retrieved date, from <http://www.website.com/>.

Mention of figures and tables within text: When referring to figures, tables and other elements within the text, always call the element by its full name (for example: "See Table 1", "Figure 1 illustrates...", "Refer to Scheme 1"). Do not use ambiguous phraseologies (for example: "1 illustrates...") that do not clearly denote the element being referred to.

Footnotes: Authors are encouraged to minimize the use of footnotes. A footnote may include the designation of a corresponding author of the paper, current address information for an author (if different from that shown in the affiliation), and traditional footnote content. Information concerning grant support of research should appear in a separate Acknowledgments section at the end of the paper, not in a footnote. Acknowledgments of the assistance of colleagues or similar notes of appreciation also properly belong in an Acknowledgments section, not in footnotes.

Footnotes should be indicated in the text by the following symbols: * (asterisk or star), † (dagger), ‡ (double dagger), ¶ (paragraph mark), § (section mark), || (parallels), # (number sign). Do not use numerals for footnote call-outs, as they may be mistaken for bibliographical reference call-outs or exponents. Type each footnote at the bottom of the typescript page on which its text call-out appears. Footnotes within a table should be indicated by the same symbols listed above. Reinitialize symbol sequence within tables. Type footnotes to a table directly beneath the table.

Mathematical Equations: Wherever possible, mathematical equations should be entered in the Microsoft Word document, with unusual or ambiguous symbols identified in the margin where they first occur. Alternatively, equations may be typewritten on a separate page, with their designated positions specified in the text.

Units: Please use S.I. (metric) units. Where useful, inch/pound equivalents may be included in parentheses.

Specifications for the Submission of Figures and Artwork

Figures may be provided as either original high quality hard copies or as separate electronic files.

If supplied as hard copy, photos should be high quality, glossy, original prints of maximum contrast. Line art should be original, camera-ready copy on white paper or clear transparency of a standard for direct reproduction. Film negatives are not acceptable.

Electronic images supplied separately should be saved as EPS, TIFF, JPEG or BMP files. It is very important that all electronic images be provided as high-resolution files. Photographic images (black & white or color) should be saved at a resolution of 300 dpi minimum. Line art should be saved between 600 and 1200 dpi.

Full captions and photo credits (if necessary) should be provided for each photo and figure. All images should be clearly labeled as to figure number. Top should be indicated if it is not immediately apparent.

Whenever the use of color is an integral part of the research, or where the work is generated in color, the journal will publish the color illustrations as color plates in the back of the issue without charge to the authors. Reprints in color will carry a surcharge. Please write to the Editor for details.

For artwork originally published elsewhere, it is the author's responsibility to obtain written permission to reprint.

Proofs: The corresponding author will receive proofs of the typeset article via e-mail as a PDF file. Please ensure that an e-mail address at which PDF attachment files may be received is provided.

Reprints: The corresponding author will receive a PDF file of the finalized article for free use. Additional reprints may be ordered by completing the appropriate form supplied with the proofs.

Page Charges: There are no page charges to individuals or institutions for contributions to the *International Journal of Transport Phenomena*.
