

# TRANSGENICS

BIOLOGICAL ANALYSIS THROUGH DNA TRANSFER

## EDITOR IN CHIEF

**Julius M. Cruse**

Department of Pathology  
Immunopathology Section  
University of Mississippi Medical Center  
2500 North State Street  
Jackson, MS 39216, USA

e-mail: jcruse@pathology.umsmed.edu

## SENIOR EDITOR

**Robert E. Lewis**

Department of Pathology  
Immunopathology Section  
University of Mississippi Medical Center  
2500 North State Street  
Jackson, MS 39216, USA

## ASSOCIATE EDITOR

**Alexander Kuklin**, Immunicon Corporation., Huntingdon Valley, PA, USA

## EDITORIAL BOARD

**Adriano Aguzzi**, Zurich Switzerland • **Daniel M. Altmann**, London, UK • **Rudi Balling**, Freiburg, Germany • **Richard K. Barth**, Rochester, NY, USA • **Steven R. Bauer**, Bethesda, MD, USA • **Dominique Charron**, Paris, France • **Francis V. Chisari**, La Jolla, CA, USA • **Yongwon Choi**, Philadelphia, USA • **François Cuzin**, Nice, France • **Nelson Fausto**, Seattle, WA, USA • **Jon W. Gordon**, New York, NY, USA • **Achim Gossler**, Köln, Germany • **Mark I. Greene**, Philadelphia, PA, USA • **Stephen M. Hedrick**, La Jolla, CA, USA • **Gerald E. Marti**, Bethesda, MD, USA • **J.F.A.P. Miller**, Melbourne, Australia • **Lennart Mucke**, La Jolla, CA, USA • **Gerald Nepom**, Seattle, WA, USA • **Harry T. Orr**, Minneapolis, MN, USA • **Carl A. Pinkert**, Rochester, NY, USA • **S. Steven Potter**, Cincinnati, OH, USA • **Carol Readhead**, Los Angeles, CA, USA • **Stephen M. Rose**, Bethesda, MD, USA • **Andreas Schedl**, Edinburgh, UK • **Nicole Suci-Foca**, New York, NY, USA • **Erwin F. Wagner**, Vienna, Austria • **Zhao-Qi Wang**, Vienna, Austria • **David B. Weiner**, Philadelphia, PA, USA • **Debra J. Wolgemuth**, New York, NY, USA • **Andrea A. Zachary**, Baltimore, MD, USA

## CALL FOR PAPERS

The editors of *Transgenics* invite your contributions. Detailed notes for contributors can be found on the reverse side of this flier.

*Transgenics* is an international journal dedicated to original reports of biological analysis through DNA and RNA transfer *in vivo* and *in vitro*. *Transgenics* not only covers information related to animal models of disease, but also the use of gene transfer in tumor research; developmental biology; immunology, including immunologic tolerance; transplantation, including HLA transfectants; reproductive endocrinology; and gene therapy among other specialties.

The transfer of genes for research as well as therapeutic purposes is only in its infancy and requires a special publication for the free interchange of ideas and information. *Transgenics* is that publication-presenting the latest developments in transgenic research to investigators engaged in bench-work as well as to those in related disciplines who wish to keep abreast of the field.

The journal offers an opportunity for the exchange of information between investigators using transgenic animals and those involved in transfection research *in vitro*. This communication between *in vivo* and *in vitro* researchers permits multiple disciplines to interact and achieve a cross fertilization of ideas that facilitate biological analysis.

## SUBSCRIPTIONS

*Transgenics* publishes four issue per volume. Subscriptions are renewed on an annual basis.

**Institutional:** US\$598 • EURO €555 • ¥70,918      **Individual:** US\$149 • EURO €135 • ¥19,859

ISSN 1023-6171 (print) • 1607-8586 (on-line)

## Notes for Contributors

# TRANSGENICS

In order to ensure timely handling of manuscripts, contributors are encouraged to read these instructions carefully before preparing a manuscript for submission, and to check the manuscript for compliance with these notes before submitting it for publication.

### Submission of Manuscripts

Please submit three copies of your manuscript to Julius M. Cruse, Editor in Chief, Department of Pathology, Immunopathology Section, University of Mississippi Medical Center, 2500 North State Street, Jackson, MS 39216, USA. Please include *complete* postal addresses, e-mail addresses, and telephone and fax numbers for all authors of the article.

The preferred order of presentation is Title Page, Abstract, Introduction, Materials and Methods, Results, Discussion, Acknowledgments, References, tables, figure legends, and figures.

Submission of a paper to *Transgenics* implies that it has not been published or submitted elsewhere. It will also be assumed that the author has obtained all necessary permissions for the paper to include items such as quotations, figures, tables, results of government-sponsored research, etc. Upon acceptance, the publisher acquires the copyright for unlimited worldwide distribution including an electronic format.

### Guidelines for the Submission of Text

All submissions should be made as Microsoft Word documents. The manuscript and references should be double-spaced, presented in an easily readable, standard font and size (such as 10 or 12 pt. Times New Roman or Arial). All pages should be numbered. All manuscripts must be submitted in English; American or British spelling may be used.

**Title:** The title of the paper should clearly indicate the scope and findings of the paper and should provide an accurate indication of the contents when searched by computerized methods. An abbreviated title of a maximum of 35 characters should be provided as well.

**Authors:** The names of authors should be given in full (first name, initial(s), last name) followed by his or her department, institution and address including postal code and country. The author to whom correspondence should be directed should be indicated in the cover letter. For the corresponding author, telephone and fax numbers and e-mail address should be provided as well.

**Abstract:** Manuscripts should include an abstract of 150-250 words summarizing the significant findings.

**Keywords:** Six to twelve keywords or phrases should be supplied to aid in indexing the article.

**Text headings:** Headings should be set flush left and the text should begin on the next line. For example:

first-level **HEADING** (bold, all caps.)

second-level **Heading** (bold, upper case and lower case characters)

third level Heading: (underscore:, upper case and lower case characters)

**Tables:** Tables should be numbered consecutively and include a clear descriptive caption at the top. Table footnotes should be given a footnote symbol as explained in the Footnotes section, proceeding by row rather than by column order.

**References:** References should conform to the formats used by the National Library of Medicine in Index Medicus. References should be identified in the text by Arabic numerals [in square brackets] and should be numbered consecutively. The full list of references should be collected and typed at the end of the paper in the order in which they are first mentioned in the text. The surnames of the authors followed by initials should be given. Cite all authors on each paper; "et al." is not sufficient. The titles of journals should be abbreviated according to the style used in Index Medicus.

Examples:

JOURNAL ARTICLE:

Vega KJ, Pina I, Krevsky B. Heart transplantation is associated with an increased risk for pancreatobiliary disease. *Ann Intern Med* 1996;124:980-3.

BOOK:

Ringsven MK, Bond D. Gerontology and leadership skills for nurses. 2nd ed. Albany (NY): Delmar Publishers; 1996.

STAND-ALONE WEB DOCUMENT:

Last name, first initial. (year). *List of authoring systems*. Retrieved date, from <http://www.website.com/>.

**Mention of figures and tables within text:** When referring to figures, tables and other elements within the text, always call the element by its full name (for example: "See Table 1", "Figure 1 illustrates...", "Refer to Scheme 1"). Do not use ambiguous phraseologies (for example: "1 illustrates...") that do not clearly denote the element being referred to.

**Footnotes:** Authors are encouraged to minimize the use of footnotes. A footnote may include the designation of a corresponding author of the paper, current address information for an author (if different from that shown in the affiliation), and traditional footnote content. Information concerning grant support of research should appear in a separate Acknowledgments section at the end of the paper, not in a footnote. Acknowledgments of the assistance of colleagues or similar notes of appreciation also properly belong in an Acknowledgments section, not in footnotes.

Footnotes should be indicated in the text by the following symbols: \* (asterisk or star), † (dagger), ‡ (double dagger), ¶ (paragraph mark), § (section mark), || (parallels), # (number sign). Do not use numerals for footnote call-outs, as they may be mistaken for bibliographical reference call-outs or exponents. Type each footnote at the bottom of the typescript page on which its text call-out appears. Footnotes within a table should be indicated by the same symbols listed above. Reinitialize symbol sequence within tables. Type footnotes to a table directly beneath the table.

### Specifications for the Submission of Figures and Artwork

Figures may be provided as either original high quality hard copies or as separate electronic files.

If supplied as hard copy, photos should be high quality, glossy, original prints of maximum contrast. Line art should be original, camera-ready copy on white paper or clear transparency of a standard for direct reproduction. Film negatives are not acceptable.

Electronic images supplied separately should be saved as EPS, TIFF, JPEG or BMP files. It is very important that all electronic images be provided as high-resolution files. Photographic images (black & white or color) should be saved at a resolution of 300 dpi minimum. Line art should be saved between 600 and 1200 dpi.

Full captions and photo credits (if necessary) should be provided for each photo and figure. All images should be clearly labeled as to figure number. Top should be indicated if it is not immediately apparent.

Whenever the use of color is an integral part of the research, or where the work is generated in color, the journal will publish the color illustrations as color plates in the back of the issue without charge to the authors. Reprints in color will carry a surcharge. Please write to the Editor for details.

For artwork originally published elsewhere, it is the author's responsibility to obtain written permission to reprint.

### Proofs

The corresponding author will receive proofs of the typeset article via e-mail as a PDF file. Please ensure that an e-mail address at which PDF attachment files may be received is provided.

### Reprints

The corresponding author will receive a PDF file of the finalized article for free use. Additional reprints may be ordered by completing the appropriate form supplied with the proofs.

### Page Charges

There are no page charges to individuals or institutions for contributions to *Transgenics*.
