14TH BIENNIAL ISRS CONGRESS — RIO DE JANEIRO, BRAZIL, JUNE 9–13, 2019

The call for abstracts for the 14th ISRS Congress is now open. Please submit your abstracts for the selection of contributions to appear on the program, which will be designed to cover major advancements in SRS/SBRT. Deadline: January 31st, 2019.

To find all related congress information and to submit abstracts covering a range of topics from novel SRS technologies to combination therapies, physics and imaging, please go to www.isrscongress.org/en/.

ISRS REACHES A NEW MEMBERSHIP MILESTONE

For the first time, ISRS now has over 750 members. New societies that have become ISRS affiliates include: the Latvian Therapeutic Radiology Association[†] (LTRA), the Leksell Gamma Knife Society[‡] (LGKS), the Brazilian Radiosurgery Society[§] (SBRC) and the Argentinian Association of Radiosurgery[¶] (AAR).

CORPORATE MEMBERSHIP

ISRS, the world's premier radiosurgery organization, is delighted to announce that the Society is now accepting corporate members. Support from corporate members provides ISRS with funds to continue educational and scientific initiatives throughout the world.

We are grateful for the support of our Sponsors:

Elekta® (platinum), Varian® (gold), and RTsafe® (silver).

Membership benefits include enhanced visibility within the radiosurgery field and access to important educational resources. To review the complete list of benefits and become a corporate member, please apply here: isrsy.org/public/en/corporate/concept/.

ISRS WEBINAR LECTURE SERIES

Featuring leading international experts, the ISRS has held more than 45 webinars highlighting current practice and future directions of extra- and intracranial SRS/SBRT.

The list of free upcoming webinars is available at: www.isrsy.org/public/en/courses/webinars/upcoming-webinars. Recordings of previous webinars are available for replay from the members-only webpage.

ISRS EDUCATIONAL COURSES

Six ISRS Educational Courses have been held throughout the world this year. The next course: *SRS/SRT in management of benign intracranial tumors, cerebrovascular diseases, and prostate cancer. Medical physics for radiosurgery*, will be held November 1–3, 2018 in Kuopio, Finland.

ISRS educational program information is available at: <http://isrsy.org/public/en/>
