Vice Chair for Academic Programs for the Department of Radiation Oncology, Department of Neurosurgery and Biomechanical Engineering, University of Alabama at Birmingham, USA

The upcoming webinar is available at: <http://www.isrsy.org/public/en/courses/webinars/upcoming-webinars/>

### ISRS COURSES

Starting from December 2016, ISRS has implemented a program of educational courses, which are dedicated to various applications of SRS/SRT for management of brain and extracranial disorders. The events are organized six times per year in different countries worldwide.

Upcoming courses include the following.

*June 9, 2019; Rio de Janeiro, Brazil*

#### **Comprehensive Overview of SRS and SBRT**

*October 4-6, 2019; Tbilisi, Georgia*

#### **SRS/SRT in Management of Intracranial Tumors, Head and Neck, Lung and Abdominal Cancers, and Medical Physics for Radiosurgery**

*December 6, 2019; Milan, Italy*

#### **SBRT for the Treatment of Liver and Pancreatic Cancer**

For information on forthcoming courses (subject to updates), please visit: <http://www.isrsy.org/public/en/courses/training/forthcoming/>

### ISRS WORKING GROUP ON PROSTATE RADIOSURGERY

The ISRS Working Group on Prostate Radiosurgery was created during the educational course held in Kuopio, Finland, November 1-3, 2018.
