
JOURNAL OF MULTIPLE-VALUED LOGIC AND SOFT COMPUTING

ISSN 1542-3980 (print) 1542-3999 (online)

Editor-in-Chief

Dan A. Simovici

Department of Mathematics and Computer Science
University of Massachusetts at Boston

Abstracted and Indexed in:

Abstracted/Indexed in Science Citation Index Expanded (SciSearch), CompuMath Citation Index, Current Contents: Engineering, Computing & Technology, Mathematical Reviews and Mathscinet

Journal Impact Factor

0.861

CALL FOR PAPERS

The aim of the *Journal of Multiple-Valued Logic and Soft Computing* is to publish and disseminate knowledge in the areas related to multiple-valued logic and various disciplines that relate to soft computing, that is, to computing that is tolerant of imprecision, uncertainty, partial truth and approximative reasoning. Specific topics include (but are not limited to):

Logic: algebra, minimization, spectral methods • Circuits: Design, programmable logic, verification, testing, VLSI, ULSI • Artificial intelligence: automated reasoning, theorem proving, expert systems • Fuzzy logic: theoretical and practical aspects, fuzzy systems, fuzzy logic • Soft computing constituents: neural computing, evolutionary computation, heuristics • Machine learning and data mining • Applications of soft computing in science and engineering

The editors of the *Journal of Multiple-Valued Logic and Soft Computing* invite your contributions. Notes for contributors can be found at the journal website at: <http://www.oldcitypublishing.com/journals/mvlsc-home/mvlsc-notes-for-contributors/>

SUBSCRIPTIONS

Journal of Multiple-Valued Logic and Soft Computing publishes two volumes per year, six issues per volume.

Subscriptions are renewed on an annual basis.

For 2022, Volumes 38, 39, Issues 1-6

Institutional: US \$4151 • EURO €3527 • YEN ¥465,500 **Individual:** US \$1016 • EURO €918 • YEN ¥119,000
