<tbody>
<tr>
<td>Journal of Radiosurgery &amp; SBRT</td>
<td>Samuel Ryu</td>
<td>A product of multi-disciplinary endeavor, RSBRT is inclusive of physics, biology, and clinical experience of radiosurgery and SBRT, in the specialties of neurosurgery, radiation oncology, physics, other related medical specialties, and many other technological developments.</td>
</tr>
<tr>
<td>Lasers in Engineering</td>
<td>Jonathan Lawrence</td>
<td>LIE publishes original (primary) research articles, reviews, short communications and letters on all aspects relating to the application of lasers in the many different branches of engineering and related disciplines.</td>
</tr>
<tr>
<td>Nonlinear Optics, Quantum Optics: Concepts in Modern Optics</td>
<td>Francois Kazar and Mark G. Kuzyk</td>
<td>NLOQO publishes primary papers reporting original research, review articles and rapid communications related to the principles, experimental discovery, materials, and devices related to nonlinear optical processes and quantum information processing.</td>
</tr>
<tr>
<td>Technology, Instruction, Cognition and Learning</td>
<td>Joseph M. Scandura</td>
<td>TICL is an international, interdisciplinary journal of structural learning, promoting and disseminating interdisciplinary advances in theory and research at the intersection of four focus disciplines: Technology, Instruction, Cognition and Learning.</td>
</tr>
<tr>
<td>Woman's Art Journal</td>
<td>Joan Marter and Margaret Barlow</td>
<td>Representing the interests of women and art worldwide, WAJ serves as a forum for re-examining feminist concerns of the women's art movement.</td>
</tr>
<tr>
<td>Women's Review of Books</td>
<td>Jennifer Baumgardner</td>
<td>WRB has provided a forum for serious, informed discussion of new writing by and about women since 1993. WRB provides a unique perspective on today's literary landscape and features essays and in-depth reviews of new books by and about women.</td>

</table>
American Poetry Review
Editor-in-chief: Elizabeth Scanlon
APR is dedicated to reaching a worldwide audience with a diverse array of the best contemporary poetry and literary prose. APR also aims to expand the audience interested in poetry and literature, and to provide authors, especially poets, with a far-reaching forum.

Journal of Cellular Automata
Editor-in-chief: Andrew Adamatzky
JCA publishes high-quality papers where cellular automata are studied theoretically or used as computational models of mathematical, physical, chemical, biological, social and engineering systems.

Journal of Multiple-Valued Logic and Soft Computing
Editor-in-chief: Dan A. Simovici
The aim of MLSC is to publish and disseminate knowledge in the areas related to multiple-valued logic and various disciplines that relate to soft computing, that is, to computing that

Display and Imaging
Editor-in-chief: Andrea Campese
D&I covers studies into the fundamental theoretical understanding of the origins and mechanisms of light emission and absorption; electroluminescence, electroabsorption, photoluminescence, fluorescence, stimulated emission and other electrical or optical phenomena.

High Temperatures - High Pressures
Co-editors-in-chief: Ivan Egyi and Jean François Sacadura
HTHP publishes original research papers related to thermophysical properties of matter, including thermal and transport properties. Papers dealing with the gaseous, liquid or solid phase are equally welcome.

International Journal of Wettability
Editor-in-chief: Andrea Campese
IJWST publishes peer-reviewed research articles, reviews, short communications and letters relating to the field of wettability science, associated technologies and applications.

International Journal of Unconventional Computing
Editor-in-chief: Andrew Adamatzky
JUC offers the opportunity for rapid publication of theoretical and experimental results in non-classical computing.

Ad Hoc & Sensor Wireless Networks
Co-editors-in-chief: Jaime Lloret Mauri and Richard Yu
AHSWN provides an opportunity for researchers from computer science, engineering and mathematical backgrounds to disseminate and exchange knowledge in the rapidly emerging field of ad hoc and sensor wireless networks.

International Journal of Laser Science: Fundamental Theory and Analytical Methods
Editor-in-chief: Jonathan Lawrence
JLS covers the scientific aspects, fundamental theory and mathematical and analytical analysis methods surrounding lasers, laser beams and laser beam interactions and applications.

International Journal of Peening Science & Technology
Editor-in-chief: Pratik Shukla
UPST provides a global and multidisciplinary forum for the exchange of the science, technology, developments and applications surrounding the wide variety of peening techniques available.

International Journal of Transport Phenomena
Editor-in-chief: Van P. Carey
UTP provides a high-quality forum for a wide range of papers dealing with original research results pertaining to the transfer processes of mass, momentum and energy, particularly when two or all three processes are occurring simultaneously.

Journal of Experimental Therapeutics and Oncology
Editor-in-chief: Dominic Fan
JETO is devoted to the rapid publication of innovative preclinical investigations on therapeutic agents against cancer and pertinent findings of experimental and clinical oncology.

Journal of Marine Environmental Engineering
Editor-in-chief: Ram Mohan
The primary aim of JME is the dissemination of technical information among scientists and engineers working on marine environmental problems. The journal is unique in both its interdisciplinary nature, and its focus on applied science and engineering.

International Journal of Transport Phenomena
Editor-in-chief: David Waugh
IOTP provides a high-quality forum for the exchange of the science, technology, developments and applications surrounding the wide variety of peening techniques available.

International Journal of Active and Passive Electronic Devices
Editor-in-chief: Robert Castellano
JAPED is an international journal devoted to the science and technology of all types of electronic components. The journal publishes experimental and theoretical papers on a wide range of topics relevant to electronic devices and circuits.
